

Press Release

Hamburg, October 1, 2020. CLARIUS.LEGAL is joined by Maximiliane Könen from Axiom and will further expand the area of Project Lawyers.

CLARIUS.LEGAL is a legal service provider and a new generation law firm. We understand the needs of businesses and legal departments as well as the special demands of the German legal market:

As a legal service provider, we offer flexible legal outsourcing solutions that allow legal departments to outsource their routine tasks, thus freeing up time for strategic matters. During work peaks caused by new legislation or acute challenges such as the Corona crisis, external resources act as "overflow valves" to relieve in-house counsels of additional work. CLARIUS.LEGAL is also a classic law firm that understands the German market: We know cultural and regulatory peculiarities and guarantee regulated quality control.

After several years of working as a business consultant, Maximiliane Könen assumed the management of the Financial Services and Insurances group at Axiom in 2019. Ms Könen will contribute her expertise in strategy and business development to CLARIUS.LEGAL starting on October 1 and will be responsible in particular for the area of Project Lawyers and Interim Legal Support.

This expansion of our product portfolio is the next milestone in the history of CLARIUS.LEGAL and will enable us to support clients even more precisely and specifically in short-term legal projects.
